This is me!

EXPERIENCE

Inspiration Education Education Consultant

 August 2019 - Present

- Successfully being able to help high school students in a 1 on 1 setting. An example was helping one student in a short period of time go from Not Achieved to high Merit/Excellence in Calculus.

Victoria University of Wellington Bachelor of Engineering with Honours

 March 2018 - Present

- Over the course of my university assignments, I was able to program in various languages to create successful functional outcomes. These languages were C, C++ and Java.
- I contributed and worked within a team to achieve 98% in the first year Autonomous Vehicle Challenge. The project involved coding in C++, my role in this project was primarily debugging and coding so our vehicle could send and receive messages.

New World Silverstream Checkout Supervisor & Grocery Assistant

 October 2016 - August 2019

- Supervising and managing staff effectively and efficiently. Resolving conflicts when they arise and overall working towards a happy and stable team environment.
- Being able to work under pressure while also maintaining a high level of attention to detail.

Heretaunga College Head Boy / Prefect

 January 2017 - December 2017

- Speaking and communicating to both large groups and individuals on a regular basis.
- Keeping in touch with teachers and students through a variety of media eg Facebook, Email, etc. Being reliable and consistent in responding as fast as possible.

EDUCATION

Victoria University of Wellington - Bachelor of Engineering with Honours

 March 2018 - Present

Heretaunga College - Graduated as Proxime Accessite and with NCEA Levels 1,2 and 3 excellence endorsement (99, 90, 72 excellence credits)

 February 2013 - December 2017

PERSONAL STATEMENT

I am a second-year student who is currently studying Software Engineering at the Victoria University of Wellington. I am a highly motivated and hardworking individual, who recently completed his first year with high achieving grades. I am looking to gain an internship at your company and further develop and refine my skills. While also being able to contribute positively and meaningfully in whatever shape possible to your company if I was fortunate enough to work with you. My long term aspiration would be to eventually work in the Cybersecurity field.

- Cossie Club Kick Start Scholarship Winner (2017)
- Finalist for the 2017 Upper Hutt Young Achievers Awards
- NCEA Outstanding Scholarship English
- Heretaunga College Cup for Outstanding Contribution and Service to School

ABOUT ME

I am more than just a guy who does coding. I have quite a few interests that I like to pursue in my free time. Here are some of them:

I am a avid chess player, I used to play in quite a few amateur chess tournaments when I was younger (not so much now).

I am a big of Shonen anime and manga as well as Japanese culture as a whole. Some of my favourite series include One Piece and My Hero Academia.

I love listening to music particularly Rap music and RNB but I really like all types of music and my tastes vary. Last year I listened to over 55,000 minutes of music according to Spotify.

I am a big sports enthusiast. I love to debate and watch a wide variety of sports Football, Basketball, American Football you name it I'm probably into it. I'm quite active in my free time as well and I consider myself a bit of a gym nut. But I do enjoy a good run as well.
